

MISSION STATEMENT

The Mission of the Springdale Health Department is to promote the health and safety of our community through health education and wellness, disease prevention and emergency preparedness. We seek to meet the needs of our community by serving as a strong public health advocate and by acting as a liaison between our stakeholders and our community partners.

The services provided by our award-winning City of Springdale Health Department fall under two divisions:

Community Health

The Springdale Health Department's **Community Health** Division strives to promote health, enhance quality of life, and reduce illness and disease in the community through the following programs:

- Immunization Program
- Communicable Disease Program
- Wellness Screening Program
- Health Literacy Program

Environmental Health

The Springdale Health Department seeks to promote health and safety through education and inspection in the following **Environmental Health** Division programs: food safety, swimming pools and spas, hotels and motels, schools and playgrounds, institutions (jails), rabies control, nuisance and housing. The Springdale Health Department's Emergency Preparedness and Smoke Free Ohio Workplace programs are also part of the Environmental Health Division.

- Food Safety Education and Inspection Program
 - Plan Review Forms
- Swimming Pool / Spa Program
- Hotel / Motel Program
- School Health and Safety Program
- Institutional (Jail) Health and Safety Program
- Smoke Free Ohio Workplace Program
- Rabies Control Program
- Emergency Preparedness Program
- Nuisance / Housing Program

Director of Environmental Health

The Public Health Commissioner is appointed by the Springdale Board of Health in conjunction with the City Administration and reports directly to the City Administrator. The primary responsibility of the Commissioner is the general management, supervision, and oversight of the Health Department and its employees. The Commissioner is expected to provide leadership, direction, and guidance in the implementation of the department's programs and services which are designed to preserve and improve the general health, welfare, and environment of the Springdale community. These programs and services are provided for persons living in, working in, and visiting the City of Springdale.

Public Health Commissioner Matthew J. Clayton joined the Springdale Health Department as the Health Commissioner on August 24, 2015. Matt came to the City of Springdale after working for

the City of Cincinnati Health Department for over twelve years as a Registered Sanitarian and as a Trainer. Prior to working for the Cincinnati Health Department, Matt was employed with the Hamilton County Health Department, also as a Registered Sanitarian for over four years. In total, Matt has over twenty three years of experience in the public health field. Prior to his career as a public health official, Matt worked in the private sector as an industrial chemist and an environmental chemist for just over six years.

Matt graduated from the University of Alabama at Birmingham (UAB) in 1993 with a Bachelor in Environmental Science and Wright State University in 2022 with a Master's in Public Health. In his free time, Matt enjoys traveling, camping, attending church, and outdoor activities with his wife and four children. Matt is also involved in Boy Scouts with his sons. He and his wife are proud to be active participants in the adoptive and foster parenting community.
