More Information to You

Starting with this publication, you will receive two brochures from the Parks and Recreation Department annually. In the future, both brochures will be of equal quantity and quality. This version was put together to get the twice-a-year cycle started and be timely with the information you need. The Fall and Winter brochure will be mailed in August and cover the months of September of the current year through March of the next year. The Spring/Summer brochure will be mailed in February and cover the months of April through August of the current year. Return envelopes for membership fees will not be provided this year due to the brochure format. We apologize for any inconvenience. The return envelopes will be a part of the fall and winter brochure next year.

Our staff feels we can better serve our patrons not only with more information, but with information that gets to you closer to the time of the event that may interest you. To accomplish this goal, in addition to sending out two brochures annually, we will continue to send out flyers to schools and direct mailings for special events. There will also be numerous information packets available on our programs and events once we’re in the new facilities.

Should you have questions on this new procedure, suggestions on how we can better communicate events to you, or any matter as it relates to the Parks and Recreation Department, please contact us at your convenience.

Expansion and Renovation News

During preparation of this brochure, foundations are being formed and block is starting to come up out of the ground. By the time you have a chance to review this material the new building should be very visible to the passerby. One milestone has already been met, the switching of power from the old source to the new power source that will service the new facility. Another benchmark yet to be achieved is getting the building under roof before winter so work won’t be interrupted. Work for the rest of the year will focus on the addition. After the first of the year, work will also begin on the renovation of the current facility.

Your patience and understanding through the process has been greatly appreciated by our staff. We will continue to do our best to provide as many services as possible during the duration of the expansion process. Next year should be very exciting, as in August we dedicate and begin to utilize this wonderful facility that will serve the citizens of this community for generations to come. It will also be great to resume our special events and visit with familiar faces. I invite you to visit the City of Springdale’s web site at www.springdale.org for monthly updates on the expansion process. You will find this information under the Parks and Recreation Department heading. Feel free to stop in and talk to the staff about the progress of your new facility and what you are seeing as the building goes up.

Sincerely,
James H. Burton
Parks and Recreation Director
