For additional information about COVID-19, please contact the Springdale Health Department:
513-346-5725   health@springdale.org   www.springdale.org/health-department.aspx

To promote community health, Springdale Health recommends the following CDC based protective measures:

- **Wear a Face Mask:** This will protect your and other people. It can slow the spread of COVID-19.
- **Practice Good Hand Hygiene:** Wash your hands often. Avoid touching surfaces when possible. Avoid touching your mouth, nose, ears, and eyes. If there is no sink, use hand sanitizer.
- **Maintain Social Distance:** As much as possible, stay at least 6 feet away from other people.
- **Self-Isolation or Self-Quarantine:** Stay at home if you are sick. If you are older or have health problems that could weaken your ability to stay healthy, keep away from other people.
- **Cover your Cough or Sneeze:** Cough or sneeze into a tissue or, if you don't have one, your elbow. Throw tissue away and make sure you wash your hands or use sanitizer.
- **Clean and disinfect:** Clean and disinfect surfaces, such as mobile phones, door handles, faucet handles, grocery carts, countertops, and keypads, to keep them free from bacteria and viruses.
