Re:  East Crescentville Road Reconstruction  
BUT/HAM-CR3-1.32,  
PID 109704, Crescentville Rd.

Dear Sir or Madam:

The City of Springdale in cooperation with Butler County and the City of Sharonville, in coordination with the Ohio Department of Transportation, is proposing the widening and general upgrades to East Crescentville Road from the vicinity of Transportation Way and extending east to Centerdale Road. The project is approximately 5700 feet in length, and includes constructing a new traffic signal at the East Crescentville / Chesterdale intersection (with left turn lane), a 2-way center left turn lane, adequately sized storm sewer to eliminate poor draining ditches / undersized storm sewers, new curb/gutter and catch basins. All widening will take place on the north side of the existing roadway, located in Butler County.

The project design is currently in progress, with a planned design completion date of July 2021. The anticipated construction schedule for the project is Spring 2022 to Fall of 2022. No right-of-way acquisition is anticipated for this project within the City of Springdale. Traffic and access to properties will be maintained during construction, but may require the use of flaggers.

The City of Springdale is seeking comments from the public about the social, environmental, and economic impacts of this proposed project. The environmental impacts are anticipated to not be significant and not require mitigation. A copy of the preliminary design plans can be found on the City of Springdale web page; https://www.springdale.org/

If you have any questions or comments concerning the project please contact me at (513) 346-5520 or jagricola@springdale.org or Keith Smith at Keith.Smith@dot.ohio.gov by 02/28/2020.

Sincerely,

CITY OF SPRINGDALE

Jeffrey Paul Agricola,  
City of Springdale  
Director of Public Works
